

RETRO DECORATIVE LANTERN WITH LED FILAMENT NOCTIS

PACKAGE CONTENTS:

1x Lantern 1x Power adapter (30 cm) 1x User manual

SAFETY INSTRUCTIONS:

- Fully charge the lantern before first use. Use a USB-C cable.
- Always disconnect from the power supply before handling.
- Do not attempt to repair the lantern yourself in case of malfunction.
- Do not expose the lantern to high humidity and avoid contact with liquids.
- The light source in this device is non-replaceable. When it reaches the end of its service life, the entire lantern must be replaced and disposed of at an appropriate collection point.

CONTROLS:

1. Turn the knob clockwise until you hear a "click" (the filament lights up).
2. When the knob is in the middle position, the filament turns off and the top LED indicator lights up.
3. By continuing to turn the knob clockwise, you can smoothly adjust from low light to high light (two lighting modes: low and high intensity).
4. To turn off the lights, rotate the knob counterclockwise until you hear a "click" (all lights turn off).

Discharging: As the battery level decreases, the indicator lights gradually turn off. When the battery is almost depleted, all lights go out. If the battery capacity drops below 10%, the last indicator light will start flashing as a reminder to recharge.

Charging: During charging, the indicator lights flash in sequence. When the battery reaches a certain charge level, the corresponding indicator light remains on, while the others continue flashing. When fully charged, all four indicator lights remain steadily lit.

Dimming: Use the rotary knob to switch the light on, adjust the brightness, or switch it off.

Power Bank Function: The lantern can also be used as a power bank to charge other devices.

TECHNICAL SPECIFICATIONS:

POWER SUPPLY	5 W
LIGHT SOURCE	3 filaments + 6 SMD LEDs
BATTERIES	2 x 18650 batteries, total 2400 mAh
LUMINOUS FLUX	190 lm
COLOR TEMPERATURE	2700 K - 7000 K
MATERIAL	ABS, PC
PROTECTION RATING	IPX4
CHARGING TIME	6 - 7 hours
OPERATING TIME	4 - 80 hours
DIMENSIONS	117 x 117 x 172 mm
WEIGHT	386 g

DISPOSAL AND RECYCLING INFORMATION:

All products with this label must be disposed of in accordance with the regulations for the disposal of electrical and electronic equipment (Directive 2012/19/EU). Their disposal together with normal municipal waste is not permitted. Dispose of all electrical and electronic appliances in accordance with all local and European regulations at designated collection points with the appropriate authorisation and certification according to local and legislative regulations. Proper disposal and recycling helps to minimise environmental and human health impacts. For further information on disposal, please contact your dealer, authorised service centre or local authorities.

EU DECLARATION OF CONFORMITY:

Tesla Lighting, Ltd. hereby declares that the HCAM006 complies with EU directives.
