TECHNICAL SPECIFICATION:

MATERIAL	Aluminium + PC diffuser
POWER	12 W
LIGHT SOURCE TYPE	LED
COLOR TEMPERATURE	3000 K (warm white)
COLOR RENDERING INDEX (CRI)	≥ 80
POWER SUPPLY	220-240 V AC
FREQUENCY	50/60 Hz

APPLICATION:

This product is intended for decorative and orientation lighting of outdoor areas such as garden paths, driveways, or entrance spaces. The luminaire is designed for installation on a solid surface in outdoor environments.

INSTALLATION:

Please read this manual carefully before installation. Installation must be carried out only by a person with appropriate electrical qualifications, at minimum a qualified person.

1. PREPARATION:

- Ensure that the power cable is not connected to the mains.
- Check that the installation surface is flat, stable, and suitable for secure mounting.

2. WIRING:

- L (live) – brown wire
- N (neutral) – blue wire
- PE (protective earth) – green/yellow wire

3. MOUNTING THE LUMINAIRE:

- Secure the luminaire to the surface using the supplied mounting hardware.
- Ensure proper sealing of the cable entry to maintain IP54 protection.

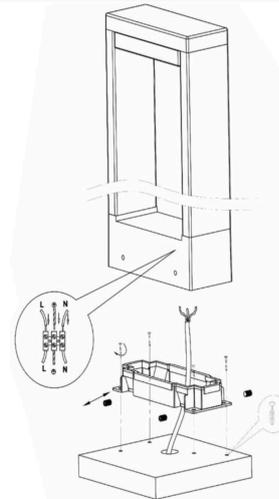

4. POWER CONNECTION:

- After completing the installation, connect the power cable to the 220–240 V mains supply.

MAINTENANCE:

- Always disconnect the luminaire from the power supply and allow it to cool down completely before performing any maintenance.
- Clean only with a soft, dry or slightly damp cloth.
- Do not use abrasive or chemical cleaning agents.
- The product contains a non-replaceable LED light source. If the light source fails, the entire luminaire must be replaced.

WIRING AND MOUNTING DIAGRAM:

⚠ WARNINGS

- The luminaire is intended for fixed installation only.
- Installation must be carried out by a qualified person.
- Do not connect the luminaire without the protective earth wire – risk of electric shock.
- Always disconnect the luminaire from the power supply before any intervention.
- Do not use the luminaire without the protective glass or other safety components.
- Installation must comply with applicable standards and regulations.

DISPOSAL AND RECYCLING INFORMATION:

All products with this label must be disposed of in accordance with the regulations for the disposal of electrical and electronic equipment (Directive 2012/19/EU). Their disposal together with normal municipal waste is not permitted. Dispose of all electrical and electronic appliances in accordance with all local and European regulations at designated collection points with the appropriate authorisation and certification according to local and legislative regulations. Proper disposal and recycling helps to minimise environmental and human health impacts. For further information on disposal, please contact your dealer, authorised service centre or local authorities.

EU DECLARATION OF CONFORMITY:

Tesla Lighting, Ltd. hereby declares that the ZALU1-1 complies with EU directives.
